

## Compost your real Christmas tree

- Cut your tree into smaller pieces to put into your green cart. Make sure the lid can close.
- If your green cart is full, tie extra branches (no more than four feet long) together with a natural fibre string or place them in paper yard waste bags. Set tied branches or yard waste bags at least one foot from the side of your green cart.

**You can also bring your Christmas tree to a tree drop-off from December 26 to January 31. [How to prepare your tree for drop-off:](#)**

- Remove all lights, ornaments, tinsel, string and tree stands.
- Do not wrap or bag your tree.
