The City of Calgary is continuing to move towards a more efficient and environmentally friendly process for circulating development permit applications. We are currently circulating new home (contextual and discretionary) development permit applications electronically to Community Associations, Ward Councilors and Enmax. Due to the success of electronic circulations and the move to online submissions for Development Permit applications, we will be expanding our digital circulations to include additional circulation referees and application types. You will begin receiving digital circulations for Development Permits by Monday May 15th, 2018.

By distributing these documents electronically, all those circulated will now receive the applications on the same day it's sent out, allowing more time to review and provide feedback. Additionally, there will no longer be a requirement for copies of printed plans, saving on paper and storage.

Please ensure your contact information is kept up-to-date, to make certain you receive your circulation packages.

We would like to kindly remind you that the information distributed may only be used by the circulation referee

for the sole purpose of reviewing the development permit application and providing recommendations or comments to The City of Calgary.

If you have any questions or concerns, please email DP.Circ@calgary.ca.

Community Representation Framework

Engagement phase 1 –Summary

The survey was completed by 200 individuals in which 97 communities responded. As well as, a number of business improvement area groups, resident's associations and other community organizations. Two 'What we Heard' reports will be added to the [Community Representation Framework](#) webpage soon, under the 'Links' tab.

Engagement phase two - purpose and structure

The information gathered from the first phase of engagement helps us better understand the current state of community representation in Calgary and your views about the feasibility of a district forum approach. This is a complex topic and we need representatives from your organization to come and work collectively with other members of community to generate ideas, discuss opportunities and problem solve in a collaborative.

Cris sent out an email to the board to ask if anyone would be interested in attending the phase two scheduled events.

President's Meeting and Town Hall

Cris attended the President's meeting with Jeromy Farkas, Thursday, May 17, 2018 which was held at the Cedarbrae Community Centre.

Two main topics of discussion:

- Ward Community Event Fund (WCEF), Jeromy had mentioned that some community associations (CA's) have not taken advance of the grants. If the funds are not allocated by August 2018, then

- the office will entertain issuing second grants to the same applicants.
- The “Community Representation Framework” task force, some community members had a huge concern. They felt that the task force objective to support communities has changed and does not meet the original objective. Members were encouraged to attend the Phase 2 sessions which will coming up soon. Phase 1 sessions - survey results can be viewed on-line. The information has been sent to the board for review.

Giving newborns the best possible start in life

The newly redeveloped maternity care unit at the Peter Lougheed Centre will improve support for pregnant women, new moms and babies in southern Alberta.

The state-of-the art redevelopment will provide 60 new care spaces, including 36 private and semi-private postpartum beds, 11 Labour and delivery beds, eight triage beds, five private antepartum beds and two C-section operating rooms.

The unit features larger rooms, increased privacy and more space for families. It was designed to help promote an enhanced experience for not just mothers, but the entire family – with better furnishings and other amenities like a family shower.

There are about 20,000 births each year in the Calgary zone, which continues to experience population growth and an increased number of births each year. Between 2011 and 2016 there was a 26 per cent increase in the number of multiple births in the Calgary area, so the unit also features improved recovery space specifically designed for moms with twins.

A new centralized fetal monitoring system allows moms and babies to move throughout the unit while providing the care team with real-time access to alerts and Labour progress to help enhance patient safety. The redevelopment improves the flow, connection and proximity to other services like the neonatal intensive care and postpartum units.

Negative pressure isolation rooms let doctors and nurses care for patients with airborne infections like tuberculosis, chicken pox or severely immunocompromised conditions.

Ward 11-Councillor Jeromy Farkas Office

Approximately 100 people attended the flood mitigation town hall meeting.

The board had a general discussion about the Community Representation Framework city initiative.

The City of Calgary supports, in principle, the application for a new hockey rink dasher boards. The letter of support does not represent formal approval of the project at this time.

He has prepared the holes for the flowers that will be planted in June for Neighbours Day.

The Potentilla bushes will be trimmed and the tree stump will be cut below ground level, filled with dirt and grass seeding to help facilitate lawn cutting.

Greener Grass did not spray weeds behind the hall, Cris will follow-up.

Clarify with Ann whether graffiti crews will be organized for Clean-up in September 9, 2018. Ken mentioned that Telus usually offers volunteers.

Currently KCA does not have room for a community garden; "Reset" will be contacted to gather more information to confirm their objective. We as a community may be able to assist in other ways. The empty lots by the School has been vacant for years will contact Phillips Bros, to see if they would entertain community gardens.

Social Director - Report

May finally brought the good weather for our two events, the Seniors Lunch and Horticultural Talk on Saturday May 5 and the Parade of Garage Sales the following Saturday May 12. The Seniors Lunch was well attended where guests enjoyed an informative talk from Verne Williams of the Calgary Horticultural Society followed by a tasty lunch. Thank you to Margaret of Primal Soups at the Market on MacLeod, she gave us a discount and provided the warmers free of charge. The others we must thank are the volunteers; Andrew, Emma and Emerald our 3 energetic youths, the usual suspects of the social committee and a special thanks goes to Lorraine for the spectacular garden themed cakes, cookies and custard. Seniors are invited back to plant perennials in our front green space on Neighbors Day, Saturday June 16. Thank you to both organizations that have provided funding for the Seniors Lunch; TD Park People and ActivateYYC.

The final cost of this Seniors Lunch and Horticultural Talk was \$960.42.

The feedback from the garage sales was very positive, everyone saying there were many people out and about in the community. There were 150 maps left at the hall, with none left over when I checked at 1:00. Each participant was also given 10 maps to hand out. I posted two ads on Kijiji with each receiving over 160 hits.

Grants

TD Park People: I've sent in the report and pictures of the Seniors Lunch, this is the first of three events this grant sponsors.

ActivateYYC / Federation of Calgary Communities: The event report and pictures have been sent in, once I receive a copy of the payment for the Horticultural Society we will be considered for payment. This group has been very helpful throughout the whole process, from the application to the final report.
